

Zero Retries Podcast Edition 0097 2023-05-05

This episode, Zero Retries 0097 Podcast, is mostly a proof of concept test using a basic recording app (no editing, intros, outros, sound effects, etc.) to produce a 6:27 podcast.

Note that this podcast is not an audio version of Zero Retries - it's more of a "meta" commentary on that issue.

Substack does a reasonable job of explaining in advance how to *start* a podcast on the Substack platform, but not much on how it shows up on a Substack publication, so the only way to figure that out is to try it as an experiment.

Let me know what you think.
